September 2014, Faculty of Engineering Technology (FETech) has opened a new chapter to officially operate at UniCITI Alam which the concept is the 'central boulevard'. Using IBS or Industrializing Building Systems, the campus emplaces all of the FETech students including teaching and learning activities. UniCITI Alam Campus provides an excellent opportunity to generate returns with the infrastructure that is equipped to local community facilities. These positive steps have been made Sungai Chuchuh as a new urban university. With the establishment of FETech now become a point of reference and expertise in the field of engineering technology. This enables the scientific discourse as the originator of the development science and new discoveries. This situation has many benefits to society and the nation through teaching, research and commercialization of products based on high technology. In addition, FETech are able to increase the capacity of human capital quality - oriented and competent hands on for the industry.
