Step 3: Select your payment method

Based on your country selection, Flywire will automatically display your local currency rate with the appropriate payment options, such as local or international bank transfer.

- Traditional bank transfer (also known as a wire) is the most cost-effective method. Please note that to complete the payment you will need to make arrangements with your bank (in person, online, or over the phone) and send your funds to Flywire in your chosen currency.

Flywire will then convert your currency and pay your institution.

If you select your home country, but you don't see your home currency, don't worry — you can always pay in the currency of your institution or select a different currency by clicking the "I want to pay in another currency" link at the bottom of the page. Although the process and benefits will remain the same, your bank will handle the foreign exchange before sending the funds to Flywire.
